

Kiểm tra lý thuyết

Exercise 1: Điền các từ cho sẵn dưới đây vào ô trống phù hợp để hoàn thành những mệnh đề sau

chủ đề	từ nối	nội dung
đầu tiên	xung quanh	trên
trước	sau	cuối cùng

Chúng ta có thể suy ra nghĩa của từ dựa vào:

- _____ của bài đọc hoặc đoạn văn
- Các từ _____ (đặc biệt là những từ đứng bên cạnh phía _____ hoặc phía _____)
- Có thể nhanh chóng xác định chủ đề của đoạn văn nhờ quan sát câu văn _____, _____, và các _____ trong đoạn

Exercise 2: Chọn chủ đề phù hợp nhất cho các đoạn văn sau

Travelling around Thailand in the 1990s, William Janssen was impressed with the basic rooftop solar heating systems that were on many homes, where energy from the sun was absorbed by a plate and then used to heat water for private use. Two decades later Janssen developed that basic idea he saw in Southeast Asia into a portable device that uses the power from the sun to purify water.

- ☐ A. William's impression of Thailand.
- ☐ B. From first inspiration to new product.
- ☐ C. History of solar heating systems.

This has been a problem for a while now. Frederick Taylor was one of the most famous authors of scientific management. Writing in the first half of the 20th century, he designed a number of principles to improve the quality of the work process, which have since become popular in modern companies. So the approach has been around for a while.

Giải thích nghĩa:

approach: (tiếp cận)

- ☐ A. Early suggestions for managing a business
- ☐ B. How scientific management becomes famous
- ☐ C. History of scientific management

Exercise 3: Chọn đáp án chứa keywords của các câu sau

Energy from the sun was absorbed by a plate and then used to heat water for private use.

- ☐ A. energy/ sun/ plate/ heat water/ private use
- ☐ B. energy/ from/ sun/ by/ plate/ then/ heat water/ use
- ☐ C. energy/ sun/ then/ used/ heat/ private use

He designed a number of principles to improve the quality of the work process.

- ☐ A. he/ designed/ number/ of/ improve/ of the work process
- ☐ B. he/ designed/ number/ principles/ improve/ quality/ work process
- ☐ C. he/ a number of/ principles to/ improve/ the quality of/ process

Exercise 4: Dựa vào 2 bước xác định chủ đề đoạn văn và keywords tại exercise 2 và exercise 3, dự đoán nghĩa tiếng Việt của các từ in đậm trong những đoạn văn sau

Travelling around Thailand in the 1990s, William Janssen was impressed with the basic rooftop solar heating systems that were on many homes, where energy from the sun was **absorbed** by a plate and then used to heat water for private use. Two decades later Janssen developed that basic idea he saw in Southeast Asia into a portable device that uses the power from the sun to purify water.

- ☐ A. Phản chiếu
- ☐ B. Làm nóng
- ☐ C. Hấp thụ

This has been a problem for a while now. Frederick Taylor was one of the most famous authors of scientific management. Writing in the first half of the 20th century, he designed a number of **principles** to improve the quality of the work process, which have since become popular in modern companies. So the approach has been around for a while.

- ☐ A. Máy móc
- ☐ B. Nguyên tắc
- ☐ C. Phần mềm

Exercise 5: Đọc các đoạn văn sau và chọn từ đồng nghĩa của các từ in đậm sau đây

The Desolenator operates as a mobile desalination unit that can take water from different places, such as the sea, rivers, boreholes and rain, and **purify** it for human usage. It is particularly valuable in regions where natural groundwater reserves have been polluted, or where seawater is the only water source available.

- ☐ A. use
- ☐ B. clean

☐ C. pump

A recent analysis found that at least two-thirds of the world's population lives with severe water **scarcity** for at least a month every year. Janssen says that by 2030 half of the world's population will be living with water stress – where the demand exceeds the supply over a certain period of time. 'It is really important that a sustainable solution is brought to the market that is able to help these people,' he says.

☐ A. shortage

☐ B. pollution

☐ C. level
